

HPC-Europa

Funded by the European Commission under Contract RII3-CT-2003-506079

Call for Participation

HPC-Europa is a consortium of leading HPC infrastructures aiming at the integrated provision of advanced computational services to the European research community working at the forefront of science. The services will be delivered at a large spectrum both in terms of access to HPC systems and provision of a suitable computational environment to allow the European researchers to remain competitive with teams elsewhere in the world.

HPC-Europa offers

- Host institutes to promote this information and invite guest scientists to their institute by arrangement of HLRS, including travel expenses, board and lodging.
- The Transnational Access activity enables researchers working in any eligible country in Europe to carry out a collaborative research visit of up to 3 months' duration in any other eligible country, and to gain access to some of the most powerful High Performance Computing (HPC) facilities in Europe.

Eligible countries:

Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the UK.

Submission Deadlines

May 15th • August 15th • November 15th
